URGES IMMEDIATE LEGISLATION ALONG LINE OF PROHIBITION ENFORCEMENT.

HOUSE PASSES BILLS

The Roddie-Williams Banking Bill and Gas Bill Are Among Those Passed.

Guthrie, Okla., Dec. 13.—The house this afternoon passed the Roddie-Williams banking bill, which has received the approval of Governor Haskell and the State Bankers' Association. A few minor changes were made. This bill was drawn in accordance with the recommendation of the governor in his first message. It will doubtless pass the senate and be signed by the governor before the holidays. Being an emergency measure, it will become effective immediately upon receiving the governor's signature.

Governor Haskell's special messages

relating to the necessary legislation for enforcing the prohibition law and the early passage of the banking law read in the house and senate today constituted an interesting feature of each session.

Without amendment and debate the house passed a bill introduced by Mr. Vandeventer regulating the piping of gas by companies in the state alone. In the event of the bill becoming a law at an early date an emergency against Standard Oil interests will have been filed.

In the senate the Vandeventer bill providing for the transfer of the state's school fund in the hands of the United States treasurer was passed by the senate with a minor amendment.

The house adjourned until Monday, on that date Speaker Murray will announce his committee.

Both houses adopted a resolution providing for a holiday adjournment extending from December 21 to January 6.

An acknowledgement from the national house of representatives signed by Speaker Cannon, of the greetings of Oklahoma came in parchment form before each house today.

House Chaplain Ray prayed at the opening of the session today that the legislators might not be influenced by superstitions. "Friday, the Thirteenth" actuated his sentiment and no member urged that all things begun should

is concluded under fear of disastrous results.

Pipe Line Regulations.

Without debate the house passed the Vandeventer measure regulating operations of pipe line companies within the state. No individual or corporation, according to this act, shall be granted right of eminent domain or to use the public highways of the state unless it first filed with the secretary of state an agreement to transport its product only to points within the state. A violation of this agreement, or the piping of its products to points outside of the state, shall of itself and without further action on the part of the state act as a forfeiture of every right granted. Foreign corporations are forbidden to engage in transporting natural gas in the state. Damages to property owners adjacent to highways used are provided for, and pipe lines must be laid under direction of the mine inspector. While signing the bill Speaker Murray remarked that it is an unlucky day of Standard Oil.

A message in parchment from the lower house of congress was received, it bore the signature of Speaker Cannon and read as follows: "Be it resolved by the house of representatives that it acknowledges welcome greetings from the state of Oklahoma and requests the speaker to tender congratulations and good wishes for future progress and greatness."

Five Million Dollar Bill.

First. The \$5,000,000 school fund now in the treasury at Washington subject to transfer to our own state on the passage of a proper act, will afford the only currency relief we have in sight. As the bill for that purpose is pending, which authorizes the withdrawal of that money from Washington in installments as rapidly as the banks of our state may be able to furnish firstclass security for its temporary deposit with the banks of our state, and immediately our state land commission is prepared to and has

numerous applications from farmers to make permanent investment of much of said money in farm mortgages as the constitution directs.

Our able United States Senator E. L. Owen, advises me that if this bill can complete its passage this week the first installment of said money can be drawn next week.

There are 19 new counties in this state which will be without funds until the first tax collection is made. They are awaiting an opportunity to borrow upon their short time county bonds, and in some instances schools will close unless relief can be available, or what is even worse, a resort will be had to the issuing of county warrants, which as usual is a disaster.

MR. EBEBY RETURNED.

This State Normal Enthusiast Informally Talks of Visit to the Capital City.

Mr. W. H. Ebey who has been in Guthrie the past week at the quest of the Commercial Club in the interest of the State Normal for Ada, returning today, very graciously tickled the ear of the News man this afternoon by talking of the incidents of his capital visit of which, as near as could be ascertained, none were personal and all of general and principally of direct interest to the Ada community. It is now known throughout the state that Ada is an aggressive and determined candidate before the legislature for a state institution. Those to be established are two additional state normals, an insane asylum, deaf and dumb asylum, an institution for the blind, a penitentiary, a boy's reformatory, industrial school for girls and in all probability a branch of the mechanical and agricultural normal. It appears practically certain, that the legislature will create these additional public institutions and that it is the impression that they will be located within the astern part of state. Mr. Ebey stated that he was very much gratified to be able to renew association this week with a considerable number of his former old Oklahoma friends, several of whom are at present in the new state legislature. Naturally it would not be permissible or discreet to publish the facts of all the incidents of Mr. Ebey's visit in behalf of the state normal for Ada. But in substance and in effect Mr. Ebey stated:

"It is known that Ada is on the map and among all contestants for institution honors none are awarded more respect from the others than Ada. It is generally recognized that Ada is one of the leading Oklahomas and in many respects exceeds even her less favored commercial cities in the possession of desirable attributes which must necessarily be considered by the legislators in the location of educational institutions. The fact of Ada's many attractive requirements, geographical location and to some extent political prestige, considered together with her many strong citizens and friends at the capital always extending courtesies, made it pleasant occupation for me to work for Ada

during my week's sojourn at the capital. Senator Roddie is at the present well connected, occupies a strong position before the legislators and is intensely interested in the normal location.

Messrs. Hiddleston and Ratliff are rapidly assuming the position in the house to which they are entitled, generally popular with the members and regarded as among the stronger members of the body. Mr. Ebey further, in effect, stated that he believes that Ada was well fortified for the accomplishment of her present ambition. It is his opinion that under the present political arrangement of things, it will be months before the real log rolling time will occur. He believes that it would be very good for Ada to follow the example of other aspirants by thoroughly, occasionally circulating the legislature with literature advertising the numerous attractive acquirements Ada has to offer for this desirable institution.

HASKELL'S SPECIAL MESSAGE

(Continued from Page One.)

ious method of conducting public business.

State Tax.

In a few days the taxes in former Oklahoma territory counties will be delinquent unless legislative action is taken. I still see no just right in collecting a state levy from one half of the state when a like levy is not collected from the other half, and unless you find that there is justice in its collection, I would remit the state levy on these counties.

Banks and Banking.

My office is flooded daily with letters, telegrams, telephone communications and personal calls, from all classes of people appealing for the passage of the banking revision law, that conditions may be settled and a better feeling of security prevail, which is sure to improve conditions. Delay of this subject until after the holidays is certain in my judgment, to work great hardship and continued embarrassment, and most thorough investigation show a complete absence of opposition to this bill, saving only from a very limited special interest class, who are mindful of the welfare of business and the mass of the people in general.

Liquor Traffic.

Section 8, article 6, of the constitution provides:

"The governor shall cause the laws of the state to be faithfully executed."

The prohibition of liquor traffic or the giving away of intoxicating liquors is one of the laws of our state and I am ready to enforce this law as well as all other laws with emphasis and certainty and to the greatest extent possible, but successful enforcement requires the addition of legislative details which the constitution did not undertake to provide, and I am especially earnest in appealing to you for immediate consideration and adoption of suitable laws, to the end that my hands shall not be tied and that I may not be compelled to remain a silent witness to evasions of this law. I call your attention to the statement printed in one of our prominent papers purporting to come from a prominent manufacturer of intoxicating liquors in St. Louis, where he is claimed to have paid: That he has lost a million dollars already on account of prohibition in the state of Oklahoma. If it is true, and I have no doubt it is, that his losses have reached a million dollars, in a single month, obviously Oklahoma has saved the same amount, as well as the added cost of the goods upon which he regrets the loss of profit, and I congratulate Oklahoma upon the saving of not only a million dollars from this single supply house alone, in money, but I more especially congratulate the people of our state upon a greater saving in morals. County attorneys of many counties advise me that they are unable to enforce control what they say is a growing violation of the prohibition law. That the condition in many localities is growing worse daily. Give us the needed legislation and we will enforce it.

"All of the above are certainly of the emergency class."

Reconvene January 6.

A message from the house announcing the appointment of Representatives Williams of Comanche county and Durst and Williams of Pushmataha county, to confer with the senate on joint rules, was next read, together with a concurrent resolution that when adjournment on December 21 was made, that the two houses should reconvene Monday, January 6, 1908. The latter was unanimously agreed to.

Following this a memorial to the national congress was introduced by Senator Brooks asking that congress appropriate funds for the expenses of the courts which were in session at the time that the president signed the proclamation admitting Oklahoma to the union. Another message came from the One Hundred Thousand Club of Muskogee commending a feature of the banking bill recommended in Governor Haskell's message. Both of these were acted favorably upon.

Restriction Removal.

Senator Winn, as chairman of a special committee, introduced a memorial to congress urging the removal of restrictions on all lands exempting those owned by Indian minors and the homesteads of the full-bloods.

Representative Vandever's bill, sent from the house, which asked congress to pay over the \$5,000,000 school funds to the state, was also passed.

Senator Johnson of Calumet, introduced a memorial asking that Ft. Reno be retained as a permanent army post. This passed.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments, must be combined. One is local, one is constitutional, but both are important, both essential. Dr. Shoop's Night Cure is the local. Dr. Shoop's Restorative, the Constitutional. The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments. The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

All in One Trunk

A New York woman recently won a suit against a transfer company for the value of articles contained in a trunk which was lost in transit from her summer home to her city residence. The trunk was a large one—of the "Saratoga" variety—and the claimant affirmed that it contained personal property to the amount of \$750. The abbreviated list of articles filled three inches of small type. Many items were indefinitely described, "stockings" and "men's underwear" being examples. But it was explicitly stated that the trunk held, among many things, 17 gowns and 15 skirts, ten pairs of boots, five sweaters, ten lace curtains, five bedspreads, four blankets, two rugs and a large assortment of cutlery—in short, a liberal wardrobe for two persons and practically all the belongings of their cottage, omitting the sea-breezes, the hammocks and the mosquitoes. The average man has a place for everything and keeps everything in it; yet, says the Youth's Companion, he can scarcely put a razor and six handkerchiefs into a suit case without leaving something to lap over the edges, and if he has the misfortune to be a bachelor he will view the catalogue with skepticism. But many a head of a family will put aside his doubts, and may even declare that his own wife could have found room for even more in the trunk. She has taught him the feminine version of a familiar law of physics, which is, that two objects can occupy the same space at the same time, because one can go inside the other.

White Mice on the Flag.

Lieut. R. G. Hervey, of the British navy, has designed a flag for the use of submarines. The flag measures 18 by 12 feet and its background is in three vertical sections, one colored yellow, another red and the third blue. In the center is a black shield, divided into four parts, two of which are occupied by a submarine and three torpedoes. In each of the remaining quarters is a white mouse rampant. This is the first time white or any other colored mice have appeared on a flag. The explanation of their presence on the submarine flag is that white mice are always carried on a submarine boat as a safeguard to the crew, says the Montreal Gazette. Rodents are considerably more sensitive than men to noxious gases, such as those which have a tendency to accumulate in a submarine, and immediately the mice show signs of collapse it is known that there is danger, and accordingly the boat is brought to the surface.

It is never safe to generalize from incomplete data; but a New York physician has drawn some interesting conclusions from an examination of the lives of 74 great men and women. In a paper read before the International Congress on Psychiatry, or mental diseases, the physician—a woman—said that comparatively few geniuses were the first-born of their parents; in fact, only 10 of the 74 whom she considered were the eldest children. In many cases the genius of the family had been the youngest. Coleridge was the last of 13 children; Washington Irving the last of 11; Franklin the youngest son in a family of 17, and the youngest son of the youngest son of several generations; Daniel Webster and Wagner the last of seven, Rembrandt the sixth, and Schumann the last of five.

An amazing instance of human perfidy was brought to the attention of the police the other day, says the Buffalo Express. A young man complained that his uncle had promised to drop five dollars a month in his infantile savings bank if he abstained from liquor, tobacco and froward conduct until he attained his majority. The lad avers that he has faithfully kept his part of the contract, but that on opening the bank he found it empty, whereas it should have contained \$800. Thus the complainant has missed all the delights of youth and has nothing to compensate him except his good habits.

Nevertheless, let's hope that Miss Vanderbilt will be happy with her \$12,000,000 fortune. It is a good deal of a burden, but there are ways of lightening it. Among the least admirable of these may be mentioned marrying a foreign gentleman with a title to support.

A number of Japanese officials have been sent to Switzerland for the purpose of studying the methods of Swiss hotel keepers. Japan is bound to learn. Delegations may yet come from that country for the purpose of finding out about the American boarding house.

According to the census report 1,733,332 divorces were granted during the last 20 years. This is proof that the courts have been busy issuing clearing house certificates themselves

IN AND ABOUT CORK

A City Nearly as Dirty as New York.

POET-RIDDEN SPOTS IN ERIN

Places Just as Beautiful as Killarney That Have Not Been Contaminated with Surplus Rhymes and Herded Tourists.

By CHARLES BATTELL LOOMIS.

Killarney, Ireland.—They told me that Cork was a very dirty city. They even said it was filthy, and they said it in such a way as to reflect on Irishmen in general and Corkonians in particular.

Yes, they said that Cork was a dirty city, and so I found it—almost as dirty as New York. This may sound like a strong statement but I mean it. When I arrived in Cork I saw a hill and made for it at once, because after railway travel there is nothing that so takes the kinks out of a fellow's legs as a walk up a stiff hill. And anyhow I was on a walking tour.

I arrived at the top about sunset. On reading this sentence over I find that it sounds as if the hill was an all day journey but it was only a matter of a few squares, and when I started the sun had long since made up its mind to set.

In Ireland the sun takes on Irish ways, and is just a little dilatory. It always means to set, and it always does set in time to avoid being out in the dark, but "it's an unconscionably long time a dying."

At the summit of the hill I saw a church steeple that appealed to my esthetic sense, and I asked a little boy what church it was.

"Shandon church, sir," said he with the rapid and undulating utterance of the Corkonian.

"Where the bells are?" said I.

"Yes," said he, smiling. "And over beyond is the Lee."

"The pleasant waters of the river Lee," I quoted at him, and he smiled again. Probably every traveler who goes to Cork quotes the lovely old bit of doggerel, but the Corkonian smiles and smiles.

The river Lee runs through the center of Cork, and at evening it is a favorite place for fishing, also for learning to swim on dry land.

The fishermen seem to fish for the love of casting, and the little boys swim on the pavement—two pursuits as useless as they are pleasant. Over the bridge the fishermen leaned, and cast their lines in anything but pleasant places—for the river is malodorous—and the little boys stood on benches and dived to the pavement, where they spat and then went through the motions of swimming.

There were dozens of the little boys, and most of them seemed to be brothers. Some of them were quite expert in diving backward, and all of them were dirty, but they seemed to be happy. I could not help thinking how soon the Celtic mind begins to use symbols, for it was easy to see, that when the boys spat it signified a watering place to them. I dare say they were breaking a city ordinance in spitting and if they knew that they were that much happier—stolen sweets are the sweetest.

During the time I watched the setting sun—which was still at it and, by the way, performed some lovely variations on a simple color scheme in the sky—not even an eel was caught, but the fishermen cast under the bridge, let their bait float down the (un)pleasant waters, and drew in their lines again and again—mute examples of a patience that one does not associate with Ireland.

At last I left them and started out to find Shandon church which seemed but a few squares away.

My pathway led through the slums, and up a hill so steep that I hope horses only use it as a means of descent. I passed one fireside where the folks looked cosy and happy and warm. It was a summer evening, but chilly, and the place into which I looked was a shop for the sale of coal. Shoemakers' children are generally barefooted, but these people were baring their own coal, and the mother and the dirty children sprawled around the store or home, in a shadow casting way, that would have delighted Myneher Rembrandt if he had passed by.

I was struck with the population of Cork. It was most of it on the sidewalk, and nearly all of it was under 16. Pretty faces, too, among them, and happy looking. I think that sympathy would have been wasted on them. They had so much more room than they would have in New York, and they were not any dirtier—than New Yorkers of the same class.

After I had reached the top of the hill, I turned and looked for Shandon church and it was gone. I asked a boy what had become of it, and he told me that in following my winding way through the convolutions known as streets, I had gotten as far from the church as I could in the time. He told me pleasantly, just how to go to get to the church, and it involved going to the foot of the hill and beginning again.

I asked a number of times after that, and always got courteous but rapid answers. The Irish are great talkers, but the Corkonian could hand-icap himself with a morning's silence, and beat his brothers from other counties before evening.

At last I came on the church, past its quaint and curious (to quote three

of Poe's words), statues of a green-coated boy and girl.

I asked a man when the bells began to ring, (for I had been told that they only rang at night.)

"Every quarter of an hour, sir," they'll be ringing in a couple of minutes, sir."

One likes to indulge in a bit of sentiment sometimes, and I stood and waited to hear the bells of Shandon that sound so grand on the pleasant waters of the river Lee. I had left the Lee to the fishermen and the make-believe swimmers, but the bells would sound sweetly here under the tower that held them.

A minute passed, and then another, and then I heard music—music that called forth old memories of days long since dead. How it pealed out its delight on the (icy) air of night, And how well I knew the tune:

"Down Where the Wurzburger Flows."

No, it was not the chimes but a nurse in the hospital at a piano. Before she had finished, Shandon bells began, but what they played did not blend with what she sang, and I went on my way thinking on the potency of music.

I passed on down where the River Lee flowed, and the fishermen were still fishing, but the little boys had tired of swimming.

Two signs met me at nearly every corner. One read, "James J. Murphy & Co.," and the other "Beamish & Crawford," or "Crawford & Beamish," I forget which. Both marked the places of publicans (and sinners, I doubt not), and both were brewers' names. The publican's own name never appeared, but these names were omnipresent.

Again I thought of Shandon Bells, and the romantic song, "Down Where the Wurzburger Flows," and leaving the Lee still flowing I sought my hotel.

I would like to make a revolutionary statement, that is more often thought than uttered, but before I make it, I would like to say that there are two classes of travelers: those who think there is nothing in Europe that compares with similar things in America, and those who think there is nothing in America that can hold a candle to similar things in Europe.

I hope I belong to neither class. If I mistake not, I am a Pharisee, and thank my stars that I am not as other men are. Most of us are Pharisees, but few will admit it.

I began being a Pharisee when I was a small child, and that is the time that most people begin.

I kept it up. In this, I am—like the multitude.

Having thus stated my position, let me go on to say, that I am perfectly willing to admit that this or that bit of scenery in France, or Switzerland, or England, or Ireland, lays over anything of the sort I ever saw in America, if I think it does, and I am equally willing to say, that America has almost unknown bits, that are far better than admired, and poet-ridden places in Europe.

Twin Lakes in Connecticut is one of them, and Killarney is a poet-ridden place.

Why, even in Ireland, there are places just as lovely as Killarney, but they have not been written up, and so no one goes to visit them.

I felt that one of the worst things about Killarney was the American sightseer, and I came away soon.

Cook's Tourists have never heard of Twin Lakes, thank fortune, and it will be some time before they (the lakes) are spoiled.

The Lakes of Killarney are so beautiful that they are worthy of the pen of a poet, but the pen of a poet does not make any lake more beautiful, and I am quarreling because so many people refuse to believe the evidence of their own senses, and take their natural beauties at the say so of another.

There is a tower going up in New York at present, a tower that with the exception of the Eiffel Tower, is the tallest on earth.

Many persons look at it, reflect that it is a skyscraper, and then dismiss it as therefore, hideous. But it is really very beautiful, and seen from certain vantage points, it is architecturally one of the glories of New York.

If it ever gains a reputation for beauty, you will find persons raving over it, who to-day class it among the "hideous skyscrapers."

A hundred years ago there were some skyscrapers in Switzerland, and they were thought to be hideous. After awhile, a man with a poet's eyes and a courageous tongue visited them, and he said "the Alps are beautiful."

When their reputation for beauty was established, travelers left the region round about the Rockies to go and rave over the beauties of Switzerland.

That's all.

Diamond Diggers.

Divers work as diamond diggers in South Africa. They work in icy cold water and black darkness. About three and a half miles down the river from Klerksdorp a wire rope is stretched across the Vaal river from the Transvaal to the Orange River colony side, by means of which a large scow is placed in midstream, where the divers descend and work in from 48 to 52 feet of water. At present they have no light and work for three or four hours in cold water and intense darkness. All they are able to do at present is to grope around, move the big boulders with crowbars and scrape up the smaller stuff from the bed of the river, emptying it into a large iron-bound wire drum, which takes about half an hour to fill.

PROOF FOR TWO CENTS.

If You Suffer with Your Kidneys and Back Write to This Man.

G. W. Winney, Medina, N. Y., invites kidney sufferers to write to him.

To all who enclose postage he will reply telling how Doan's Kidney Pills cured him after he had doctored and had been in two different hospitals for eighteen months, suffering intense pain in the back, lameness, twinges when stooping or lifting, languor, dizzy spells and rheumatism. "Before I used Doan's Kidney Pills," says Mr. Winney, "I weighed 143. After taking 10 or 12 boxes I weighed 162 and was completely cured."

Going to Be Fined.

When George Ade was a newspaper reporter he was sent to "write up" an Irish laborer who had fallen from a building. When Mr. Ade arrived on the scene, several officers and others were helping the injured man into the ambulance. Mr. Ade pulled out his pad and pencil. "What's his name?" he asked one of the policemen.

The injured man, who had heard Ade and who mistook him for the timekeeper employed by the contractor, rolled his eyes in a disgusted way.

"What d'ye think o' that?" he muttered. "I'm goin' to be docked for the few minutes I lose goin' to the hospital!"—Success.

SORES AS BIG AS FENNIES.

Whole Head and Neck Covered—Hair All Came Out—Cured in Three Weeks by Cuticura.

"After having the measles my whole head and neck were covered with scaly sores about as large as a penny. They were just as thick as they could be. My hair all came out. I let the trouble run along, taking the doctor's blood remedies and rubbing on salve, but it did not seem to get any better. It stayed that way for about six months; then I got a set of the Cuticura Remedies, and in about a week I noticed a big difference, and in three weeks it was well entirely and I have not had the trouble any more, and as this was seven years ago, I consider myself cured. Mrs. Henry Porter, Albion, Neb., Aug. 25, 1906."

A Sensitive Soul.

Owen Mudge was a very sensitive man. More than once at a harsh word he had forsaken profitable work and gone home for sympathy to his wife. One morning Owen started out to help Glenn Butler, who had bought a new stump-pulling machine and was preparing to clear a field.

Toward noon Owen came back. Mrs. Mudge sighed and waited sympathetically for the explanation.

"I just couldn't stand it," said Owen, rubbing his jaw. "When I see that stump-puller twist them roots out, it reminded me so of the times I went to the dentist to get back teeth extracted. The first thing I knew I was limp as a rag, and I just ached all over and had to quit."—Youth's Companion.

Best He Could Do.

It was his first circuit, and, moreover, he had to defend his first client, who was a better known than respected burglar. In an interval he approached a veteran member of the bar and sought for advice.

"And how long do you think I ought to make my speech to the jury, sir?" he finished up.

"I should say about an hour," said the old hand.

"An hour! Why, I thought ten minutes would be ample! Why so long?"

"Well," said his adviser, "you see, they can't sentence him till you're finished, and the longer you talk the longer he'll be out of jail!"—Stray Stories.

BEGAN YOUNG.

Had "Coffee Nerves" from Youth.

"When very young I began using coffee and continued up to the past six months," writes a Texas girl.

"I had been exceedingly nervous, thin and very sallow. After quitting coffee and drinking Postum Food Coffee about a month my nervousness disappeared and has never returned. This is the more remarkable as I am a Primary teacher and have kept right on with my work."

"My complexion now is clear and rosy, my skin soft and smooth. As a good complexion was something I had greatly desired, I feel amply repaid even tho this were the only benefit derived from drinking Postum."

"Before beginning its use I had suffered greatly from indigestion and headache; these troubles are now unknown."

"Best of all, I changed from coffee to Postum without the slightest inconvenience, did not even have a headache. Have known coffee drinkers who were visiting me, to use Postum a week without being aware that they were not drinking coffee."

"I have known several to begin the use of Postum and drop it because they did not boil it properly. After explaining how it should be prepared they have tried it again and pronounced it delicious."

BAD BLOOD THE SOURCE OF ALL DISEASE

Every part of the body is dependent on the blood for nourishment and strength. When this life stream is flowing through the system in a state of purity and richness we are assured of perfect and uninterrupted health; because pure blood is nature's safe-guard against disease. When, however, the body is fed on weak, impure or polluted blood, the system is deprived of its strength, disease germs collect, and the trouble is manifested in various ways. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood disorders that will continue to grow worse as long as the poison remains. These impurities and poisons find their way into the blood in various ways. Often a sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, leaves the refuse and waste matters to sour and form uric and other acids, which are taken up by the blood and distributed throughout the circulation. Coming in contact with contagious diseases is another cause for the poisoning of the blood; we also breathe the germs and microbes of Malaria into our lungs, and when these get into the blood in sufficient quantity it becomes a carrier of disease instead of health. Some are so unfortunate as to inherit bad blood, perhaps the dregs of some old constitutional disease of ancestors is handed down to them and they are constantly annoyed and troubled with it. Bad blood is the source of all disease, and until this vital fluid is cleansed and purified the body is sure to suffer in some way. For blood troubles of any character S. S. S. is the best remedy ever discovered. It goes down into the circulation and removes any and all poisons, supplies the healthful properties it needs, and completely and permanently cures blood diseases of every kind. The action of S. S. S. is so thorough that hereditary taints are removed and weak, diseased blood made strong and healthy so that disease cannot remain. It cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, etc., and does not leave the slightest trace of the trouble for future outbreaks. The whole volume of blood is renewed and cleansed after a course of S. S. S. It is also nature's greatest tonic, made entirely of roots, herbs and barks, and is absolutely harmless to any part of the system. S. S. S. is for sale at all first class drug stores. Book on the blood and any medical advice free to all who write.

WEEKLY SOCIAL COLUMN.

MRS. W. S. THOMPSON.

Sorosis Club.

That Friday 13th is an unlucky day
and date will henceforth be dispelled
from the minds of Sorosis Club mem-
bers, for "no witch bath power to
charm" away the memory of the pleas-
ant and profitable meeting on this sup-
posed-to-be-hoodoo day.

By a curious co-incidence, the re-
sponse to roll call was superstitions
in others of Shakespeare's plays, and
the lesson included the most super-
stitious portion of Macbeth.

Twice indeed a feast day of super-
stition.

Under Mrs. Constant's able leader-
ship, extreme interest was manifested
throughout the entire lesson and the
ready responses proved that each mem-
ber was prepared to act well her part
as though urging with Mrs. Constant
in her thorough preparation as leader.
Mrs. Hodges and Mrs. I. M. King
contributed much to the interest of

the lesson by their excellent papers.
After adjournment the hostess, as-
sisted by Miss Vaden of Roff, refresh-
ed us with a cup of coffee and deli-
cious cake.

Miss Vaden was a very welcome
club visitor.

The First Presbyterian Aid Society
met with Mrs. W. L. Reed on Wed-
nesday. Miss Reed served elegant re-
freshments. The Aid will have its
Christmas Bazaar next Wednesday at
M. L. Walsh's store.

The XX Century Club met with
Mrs. Croxton on Tuesday. The after-
noon was devoted to Shakespeare,
members answering to roll call with
favorite quotations. Mrs. Carney led
in a biographical discussion. Mrs. Le
Fevre gave a very interesting sketch
of "The Story of As You Like It." Mrs.
Julius Meaders will entertain the Club
next Tuesday.

The Rebecca Chapter will hold a
special meeting tonight and initiate

several candidates.

Judge and Mrs. C. A. Galbraith en-
tertained the Fort-Two Club at their
home on the corner of Fourteenth
and Rennie last evening in a very
charming manner.

A unique feature of the evening was
the score cards attached to gilded
clothes pins—with which the ladies
pinned their handkerchiefs to a dain-
ty ribbon "clothes line" the men by
selecting a handkerchief from the line
claimed the fair owner as his partner
for the game of "progressive forty-
two."

A delightful "hot course" was served
consisting of scalloped oysters,
pickles, waters and coffee.

A full report of the City Federation
of Clubs which met last Saturday
will appear next week.

The Ladies Aid of the First Baptist
church presented their beloved
president, Mrs. Parker, with an ele-
gant toilet set, before her depart-
ure for her new home in Texas. May
the blessings of the Lord rest upon
her, is the prayer of the Aid. Our loss
is their gain.

A tickling cough, from any cause,
is quickly stopped by Dr. Shoop's
Cough Cure. And it is so thoroughly
harmless and safe, that Dr. Shoop tells
mothers everywhere to give it with-
out hesitation, even to very young ba-
bies. The wholesome green leaves and
tender stems of a lung-healing
mountainous shrub, furnish the cura-
tive properties to Dr. Shoop's Cough
Cure. It calms the cough, and heals
the sore and sensitive bronchial mem-
branes. No opium, no chloroform,
nothing harsh used to injure or sup-
press. Simply a resinous plant extract,
that helps to heal aching lungs. The
Spaniards call this shrub which the
Doctor uses, "The Sacred Herb." Al-
ways demand Dr. Shoop's Cough Cure.

FARMERS' UNION IN
SESSION TODAY.
Members From All Parts of the Coun-
ty Are Here in Attendance.

Pursuant to a call from State Pres-
ident J. A. West, a special meeting of
the County Farmers' Union, is in ses-
sion in the city today. About fifty
delegates from various locals are in
attendance and the nature of the spe-
cial meeting is of vital interest to the
union, but of course is not for publi-
cation.

County President G. W. Black, of
Black Rock, is also here and was a
pleasant caller at the News office last
evening, and informs the News that
the Union is growing rapidly and is
in a prosperous condition. Many
prominent farmers of the county are
here participating in the meeting, and
also several members of the state
board.

A BLOOD MIXTURE.

A Fine Remedy Which Anyone Can Easily Fix at Home.

All medical authorities are agreed that the blood is the great source of disease or of health in the human system. If the blood is pure, the individual is strong and healthy, if the blood is impure or diseased then there is sickness or decay in the whole system.

Rheumatism is strictly a blood disease. It is caused by excessive uric acid. Sores, pimples, etc., mean bad blood. Catarrhal affections must be treated through the blood to get permanent results. To get well, to feel strong, heavy and vigorous one must have good clean blood and lots of it. You can't clean the blood thoroughly unless the kidneys are made active. Bad blood means clogged, inactive kidneys and liver which causes, too, such symptoms as backache, nervousness,

bladder and urinary difficulties and other sympathetic troubles.

Here is a simple home remedy and the Recipe for making it up is as follows:

Fluid Extract Dandelion one-half ounce, Compound Kargon one ounce, Compound Syrup Sarsaparilla three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime. The ingredients can be obtained at any good prescription pharmacy at small cost.

Here the readers of this paper have a simple yet powerful and effective remedy for all forms of blood, kidney and bladder diseases which should relieve rheumatism and catarrhal affections and replace that weak, worn-out indifferent feeling with strength, vigor and health.

The remains of H. J. Stewart, who died Friday morning were interred at Rosedale at 3:00 o'clock this afternoon. His son arrived from Neosho, Mo., Friday evening.

The Ada News Subscription Contest

From last Monday, December 24, to continue four months, ending March 31st. The News inaugurated a great SUBSCRIPTION CONTEST devoted to securing a larger and more extended circulation and to properly rewarding those who may become our associates and helpers in this undertaking.

All the premiums will be listed in the order of their conservatively estimated values. At the expiration of the contest, the premium awards will be made by the contest judges who will be selected with a view to their fitness, based on their reputations for honesty and fair dealing.

To the lady contestant securing the highest number of votes there will be given a \$500 upright standard brand piano, accompanied with a guarantee of ten years purchased from the Mathews Music Company of Ada, a most responsible music house. See splendid piano displayed in their store window. To the contestant, Ladies and Gentlemen included—securing the second highest number of votes there will be given a warranty deed to a Three Hundred (\$300.00) dollar dwelling lot situated in the most select part of Sunrise Addition, Ada, Okla. This pretty lot has a prospective value of easily Even Hundred and Fifty Dollars, for it is level and high and close in, and is the adjoining lot to one on which is constructed splendid two story \$1,000 home. Within one block of the lot which will be given away is situated the elegant homes of Tom Chambliss, Henry Furman, Tom Hope, Dr. Legon, Mrs. Sowers, Dr. King, Henry Young, A. M. Croxton and J. E. Miles, which represents actual real estate values of more than Thirty Thousand (\$30,000) Dollars.

There will be several other premiums included in other valuable real estate situated in the more substantial towns in this section, and in addition a \$100 standard typewriter and an \$80.00 life scholarship in Hill's business college.

This is called The News \$1,500 Subscription Contest, for it is proposed to give that much in value in premiums. So attractive will be this contest, that those entering may safely feel certain that for a few week's pleasant occupation, there may be secured not only wide reputation for popularity and high standing but, as well the ownership of substantial property, which under ordinary circumstances would take many long months of hard labor to acquire.

The News suggests that you be first from your community to get in the contest. You will be gratified to learn the number of your friends who will save News coupons good for six votes for you and as well renew their subscriptions and become new subscribers. For every dollar collected in any manner on subscription to the News there will be credited in favor of contestant whom subscriber may designate One Hundred Votes. It has been decided that for every dollar paid on subscription to The Daily News, there will only be allowed fifty votes instead of One Hundred Votes as in the Weekly News and instead of each coupon in the Daily News being good for six votes as in the Weekly News, each Coupon will only be worth one vote.

This premium contest is inaugurated principally in behalf of The Weekly News, and it is determined that the rules promulgated shall not militate against the boys and girls and men and women in the country districts. After this week the location of the premiums in contest will be published that all may determine for themselves the value of News premium offers.

All interested parties are cordially invited to communicate with the editor, either through correspondence or by personal call.

That's What Each County Must do--
State Board Will Furnish Only
State Ticket--Printers Will Have
to Work on Credit

Judge C. A. Galbraith returned this morning from Guthrie where he attended Monday the first session of the new state election board, composed of Gov. Frank Frantz, ex-officio, John Threadgill of Oklahoma City, republican, and Judge Galbraith, democrat.

W. O. Cromwell gave out an opinion last night outlining the duties of the election board. It was asked because of a conflict between the election ordinance of the constitutional convention and the territorial election laws. The election board met yesterday in a preliminary meeting to discuss the duties and hear this opinion.

The opinion is as follows:
Hon. Frank Frantz, Governor of Oklahoma, Guthrie.
In conversation this morning you asked an answer to the following question:
'What ballot and other election supplies if any is the territorial board of election commissioners required to furnish for the elections to be held September 17 next?'

The territorial board of election commissioners are required to prepare have printed and distribute the ballots for the question for the ratification or rejection of the proposed constitution and for the adoption or rejection of the 'state-wide prohibition proposition. Both questions to be submitted on the ballot.

Elections Ordinance Sections 2, 15, 19 and 20.
Said board is also required to prepare have printed and distribute the ballots bearing the names of candidates for the following offices and none other to wit: Governor, Lieutenant Governor, Secretary of State, Auditor, Attorney General, State Treasurer, Superintendent of Public Instruction, State Examiner and Inspector, Chief Mine Inspector, Labor Commissioner, Commissioner of Charities, Commissioner of Insurance, three corporation commissioners, clerk of the supreme court and five justices of the supreme court.

Section 15 chapter 33, Wilson's statutes 1903. Section 1 Article 1 chapter 17 Session laws 1905. Section 11, Article 1, Chapter 17, Session laws 1905. Section 2 election ordinance.

The second paragraph of Section 1 of the election ordinance is so far as it relates to "representatives in congress and all members of the legislature, and all other officers provided by the constitution," other than those above named is in conflict with the above cited statutes of Oklahoma applicable by the terms of section 2 of the Enabling Act, and therefore inoperative.

The before mentioned ballots are required to be printed on red tinted paper.

In addition to the above the said board is required to furnish with each package of ballots delivered to the several county clerks three stamps bearing a cross (X) or such other design as they may select, together with a like number of ink pads.

Section 27 Chapter 33, Wilson's statutes 1903.

Certificates of nomination are required to be filed with the governor on or before the 27th day of August last.

Section 20 Chapter 33, Wilson's statutes 1903.

Following Mr. Cromwell's opinion the board took steps to have printed the state ballots. Judge Galbraith urged that the contract should be let to the lowest bidder but of course the two republican members sat squarely down on that proposition.

The job will probably be let to the state republican organ, the Guthrie State Capital at ample figures.

The situation, explained Judge Galbraith, that there is no funds available with which to pay election expenses. The county boards in each county will have to arrange for the printing of ballots containing names of all candidates from congress on down to township officers. Printers, both of the state ticket and the county ticket will have to look to the future for pay—either to a deficiency appropriation by congress or to an appropriation by the first state legislature. The election board is of the opinion that congress will make the appropriation.

Section 15 chapter 33, Wilson's statutes 1903. Section 1 Article 1 chapter 17 Session laws 1905. Section 11, Article 1, Chapter 17, Session laws 1905. Section 2 election ordinance.

MUSKOGEE WILL GIVE

PRESIDENT LIVE BEAR

Muskogee, Okla., Dec. 13.—Muskogee will present President Roosevelt with a Christmas present in the shape of a real live Teddy bear. The cub is about 9 months old and was captured by Police Chief Kinsey and Alderman Paul in the Choctaw hills several weeks ago. An invitation will accompany the pet for the president to spend his next bear hunt near Muskogee.

BETTER THAN SPANKING

Spanking does not cure children of bedwetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W., South Bend, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her

today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and ameliorates troubles with active children in a day or two.

The Ada News Subscription Contest

From last Monday, December 24, to continue four months, ending March 31st. The News inaugurated a great SUBSCRIPTION CONTEST devoted to securing a larger and more extended circulation and to properly rewarding those who may become our associates and helpers in this undertaking.

All the premiums will be listed in the order of their conservatively estimated values. At the expiration of the contest, the premium awards will be made by the contest judges who will be selected with a view to their fitness, based on their reputations for honesty and fair dealing.

To the lady contestant securing the highest number of votes there will be given a \$500 upright standard brand piano, accompanied with a guarantee of ten years purchased from the Mathews Music Company of Ada, a most responsible music house. See splendid piano displayed in their store window. To the contestant, Ladies and Gentlemen included, securing the second highest number of votes there will be given a warranty deed to a Three Hundred (\$300.00) dollar dwelling lot situated in the most select part of Sunrise Addition, Ada, Okla. This pretty lot has a prospective value of easily Eleven Hundred and Fifty Dollars, for it is level and high and close in, and is the adjoining lot to one on which is constructed splendid two story \$1,000 home. Within one block of the lot which will be given away is situated the elegant homes of Tom Chambliss, Henry Furman, Tom Hope, Dr. Legon, Mrs. Sowers, Dr. King, Henry Young, A. M. Croston and J. E. Miles, which represents actual real estate values of more than Thirty Thousand (\$30,000) Dollars.

There will be several other premiums included in other valuable real estate situated in the more substantial towns in this section, and in addition a \$100 standard typewriter and an \$80.00 life scholarship in H.H.'s business college.

This is called The News \$1,500 Subscription Contest, for it is proposed to give that much in value in premiums. So attractive will be this contest, that those entering may safely feel certain that for a few week's pleasant occupation, there may be secured not only wide reputation for popularity and high standing, but, as well the ownership of substantial property, which under ordinary circumstances would take many long months of hard labor to acquire.

The News suggests that you be first from your community to get in the contest. You will be gratified to learn the number of your friends who will save News coupons good for six votes for you and as well renew their subscriptions and become new subscribers. For every dollar collected in any manner on subscription to the News there will be credited in favor of contestant whom subscriber may designate One Hundred Votes. It has been decided that for every dollar paid on subscription to The Daily News, there will only be allowed fifty votes instead of One Hundred Votes as in the Weekly News and instead of each coupon in the Daily News being good for six votes as in the Weekly News, each Coupon will only be worth one vote.

This premium contest is inaugurated principally in behalf of The Weekly News, and it is determined that the rules promulgated shall not militate against the boys and girls and men and women in the country districts. After this week the location of the premiums in contest will be published that all may determine for themselves the value of News premium offers.

All interested parties are cordially invited to communicate with the editor, either through correspondence or by personal call.

A BLOOD MIXTURE

A Fine Remedy Which Anyone Can Easily Fix at Home.

All medical authorities are agreed that the blood is the great source of disease or of health in the human system. If the blood is pure, the individual is strong and healthy. If the blood is impure or diseased then there is sickness or decay in the whole system.

Rheumatism is strictly a blood disease. It is caused by excessive uric acid. Sores, pimples, etc., mean bad blood. Catarrhal affections must be treated through the blood to get permanent results. To get well, to feel vigor, hearty and vigorous one must have good clean blood and lots of it. You can't clean the blood thoroughly unless the kidneys are made active. Bad blood means clogged, inactive kidneys and liver which causes, too, such symptoms as backache, nervousness,

trouble and many difficulties and other sanguinary troubles.

Here is a simple home remedy and the result for making it up is as follows:

Fluid Extract, Dandelion, one-half ounce, Compound Senna, Sarsaparilla, three ounces. Shake well in a bottle and use as a potent purgative after each meal and again at bedtime. The product is not contained in any one prescription pharmacy at small cost.

Here the readers of this paper have a simple yet powerful and effective remedy for all forms of blood, kidney and bladder diseases which should remove rheumatism and catarrhal affections and replace that weak, worn-out, inefficient feeling with strength, vigor and health.

The remains of H. J. Stewart, who died Friday morning were interred at Rosebush at 3:00 o'clock this afternoon. His son arrived from Nashua, Mo., Friday evening.

To check a cold quickly, get from your druggist some little Candy Cold Tablets called Preventives. Druggists everywhere are now dispensing Preventives, for they are not only safe, but decidedly effective and prompt. Preventives contain no quinine, no laxative, nothing harsh nor sickening. Taken at the "sneeze stage" Preventives will prevent Pneumonia, Bronchitis, La Grippe, etc. Hence the name Preventives. Good for feverish children, 48 Preventives 25 cents, Trial Boxes 25c. Sold by G. M. Ramsey.

MUSKOGEE WILL GIVE PRESIDENT LIVE BEAR

Muskogee, Okla., Dec. 13.—Muskogee will present President Roosevelt with a Christmas present in the shape of a real live Teddy bear. The cub is about 8 months old and was captured by Police Chief Kinney and Alderman Paul in the Choctaw hills several weeks ago. An invitation will accompany the pet for the president to spend his next bear hunt near Muskogee.

BETTER THAN SPANKING

Spanking does not cure children of bedwetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W., South Bend, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her

today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with uric acid difficulties, day or night.

The Ada News Subscription Contest

From last Monday, December 24, to continue four months, ending March 31st. The News inaugurated a great SUBSCRIPTION CONTEST devoted to securing a larger and more extended circulation and to properly rewarding those who may become our associates and helpers in this undertaking.

All the premiums will be listed in the order of their conservatively estimated values. At the expiration of the contest, the premium awards will be made by the contest judges who will be selected with a view to their fitness, based on their reputations for honesty and fair dealing.

To the lady contestant securing the highest number of votes there will be given a \$500 upright standard brand piano, accompanied with a guarantee of ten years purchased from the Mathews Music Company of Ada, a most responsible music house. See splendid piano displayed in their store window. To the contestant, ladies and gentlemen included, securing the second highest number of votes there will be given a warranty deed to a Three Hundred (\$300.00) dollar dwelling lot situated in the most select part of Sunrise Addition, Ada, Okla. This pretty lot has a prospective value of easily Seven Hundred and Fifty Dollars, for it is level and high and close in, and is the adjoining lot to one on which is constructed splendid two story \$1,000 home. Within one block of the lot which will be given away is situated the elegant homes of Tom Chambliss, Henry Furman, Tom Hope, Dr. Legon, Mrs. Sowers, Dr. King, Henry Young, A. M. Croxson and J. E. Miles, which represents actual real estate values of more than Thirty Thousand (\$30,000) Dollars.

There will be several other premiums included in other valuable real estate situated in the more substantial towns in this section, and in addition a \$100 standard typewriter and an \$80.00 life scholarship in HUP's business college.

This is called The News \$1,500 Subscription Contest, for it is proposed to give that much in value in premiums. So attractive will be this contest, that those entering may safely feel certain that for a few weeks' pleasant occupation, there may be secured not only wide reputation for popularity and high standing, but, as well the ownership of substantial property, which under ordinary circumstances would take many long months of hard labor to acquire.

The News suggests that you be first from your community to get in the contest. You will be gratified to learn the number of your friends who will save News coupons good for six votes for you and as well renew their subscriptions and become new subscribers. For every dollar collected in any manner on subscription to the News there will be credited in favor of contestant whom subscriber may designate One Hundred Votes. It has been decided that for every dollar paid on subscription to The Daily News, there will only be allowed fifty votes instead of One Hundred Votes as in the Weekly News and instead of each coupon in the Daily News being good for six votes as in the Weekly News, each Coupon will only be worth one vote.

This premium contest is inaugurated principally in behalf of The Weekly News, and it is determined that the rules promulgated shall not militate against the boys and girls and men and women in the country districts. After this week the location of the premiums in contest will be published that all may determine for themselves the value of News premium offers.

All interested parties are cordially invited to communicate with the editor, either through correspondence or by personal call.

THE CONSTITUTION AND PUBLIC SCHOOLS.

One of the principal objections urged against the proposed constitution by our fault-finding friends, the republicans, is that it makes inadequate provision for the maintenance of public schools. They charge they limit the tax levy in such degree that the maintenance of public schools for longer periods than two or three months in the year is out of the question.

Their objection here is strictly in keeping with most of the other ones they urge. That is to say it is not based upon facts in any particular.

The proposed constitution provides that a total of seventeen mills on the valuation of every district may be voted by the people for the support of the common schools. With property assessed at its actual value as proposed instead of one-fourth or one-fifth of its value, as under the system in vogue, this levy will provide sufficient funds for maintaining schools throughout the whole year in every district as a moment's reflection will demonstrate.

The Asp constitution which was submitted with the approval of every republican delegate in the late constitutional convention provided a limit of ten mills for public schools. It is reasonable to assume that this limit represents the republican idea of amount needed for their support.

In the light of these facts it is evident that the democratic party is the only one which possesses the right to lay claim to the destination of being the friend of the public school system. At any rate it makes provisions for the levying of seven mills more taxes for their support than the republican party. The charge therefore that it is opposed to free public schools or has made a constitution which makes inadequate provisions for their maintenance falls flat along with all other charges of a similar nature when they are sifted down—Oklahoma.

AMERICA'S WIRES SILENT

(Continued from p. 1)

system of communication which man can devise.

By a stroke business depending on quick communication has been paralyzed. From the stock broker whose success or failure depends upon the click of a sounder to the merchant who wants to order a half dozen hams by express there is no way to do it. The newspaper whose reputation for gathering news is one of their best assets is helpless. The great system by which the night's reached the utter parts of the earth—the machine so extensive in its ramifications and so perfect in its organization that it is certain that nothing of public interest could happen anywhere in the world without news of it being printed in the morning papers—lies dead.

So it is with personal communication. An anxious father far from home may seek to learn of the condition of his sick child with a deadly disease but there is no way.

Operators Deprived of Information.

So complete is the tie up of telegraphic communication that the striking operators themselves can learn nothing of what is being done in other cities of the country. By cutting out the Associated Press and the leased wires they muzzled themselves and the public. There will be little or no news until the deadly conflict between the companies and operators ends or is stopped.

THE PONTOTOC DELEGATION.

A Reply to Same.

Editor Evening News.—Please allow me space through the columns of The News to reply to an article that appeared in the same August 2nd under the caption of 'The Pontotoc Delegation.'

Activity of local republicans in the Tulsa Convention. This being a reflection on me one who was a part and parcel of that noted convention I beg a waiting world to give ear and be silent that you may hear a vindication of myself. The delegates who are mentioned here claim allegiance to the republican party the party of principles so aggressively enunciated by Lincoln and Sumner and so ably propagated by the deicides of the same for several generations. This party knows no creed no color and guarantees rights to all men special privileges to none. The negro since his emancipation has been a factor in this party and will continue to assert his rights in the same, though the heavens fall. He has not been a disgruntled plim, but a real vindicator of all the principles of the party. He has sacrificed at times his manhood allowing the white man to run for offices and loyally supporting him for the same. But despite all this the party seeks to repudiate the negro contingent. I note that it is said that this Pontotoc delegation is so because two of us were seated as delegates. Were we not entitled to sit? Were we not elected in the same way

they were? What right had they more than we to a seat? Are we not the creatures of the same creation? As men are we not men and entitled to every privilege as men? They say we voted negatively on every issue. Suppose we did—have we not the right as free born American citizens to exercise our right as men just the same as they? Why this difference? But the truth of the matter is that we did support the affirmative in every issue. Then why do they do us injustice? What a travesty on truth. The negro has played well his part in the drama of civilization. In the American revolutionary war the negro blood cemented the corner stone of this great republic. In the civil war he made it possible for the existence of this nation as a union. The same in the Spanish-American war. What next?

GENTLE IN HIS CRITICISM.

World Would Be Better For More Men Like Ephraim Farlowe

The shortcomings of his neighbors never troubled Ephraim Farlowe. He found so many excuses for them that it seemed in the end as if none but the most ill-natured person would presume to mention them in a spirit of criticism.

On his farm Mr. Farlowe enjoyed the same rose-colored glass which hides the views of life so pleasant to his gentle eyes.

Kind of a moving critter she is, he said one day referring to a cow which had wandered from the field into the house. It was a fine specimen of the breed, all right, but she was a little too fat, he thought. It was a pity, he said, that she was so fat. It was a pity, he said, that she was so fat. It was a pity, he said, that she was so fat.

False Signal
"You don't believe in romance eh?" said the old boarder. "You bet your typewriter I don't." Stated the young man with the bandage around his head. "I had my share." "How was that?" "Well, you see I was forbidden to call on my best girl and every night she would sit out on the balcony and at a certain hour strike a match. That would be the signal for me to stick my head through the vines and kiss her." "Ah very poetic." "Yes but the other night I saw the match flare up stuck my head through the vines and got the worst thrashing I ever received. You see the old man happened to be out there lighting his pipe."

PROHIBITIONIST RALLY.

Large Crowd Assembled and Local Campaign Committee Selected—Strong Sentiment Prevailed.

As advertised those interested in state-wide prohibition met on Broadway last evening, and a good time was the result. The meeting was called to order by T B McKeown, who made appropriate remarks, after declared nominations in order for permanent officers. On motion A M Croxton was chosen chairman and Carlton Weaver secretary.

Rev Harrell read a passage from the scripture and the invocation was read by Rev Browne. The whole audience joined in singing America, and later a quartette composed of Rev Rippey Mr Wymore and Misses Harrell and Haynes rendered a prohibition selection. The chorus went like this "When the time comes to vote I'll be there."

On motion, a committee was appointed to select a campaign committee five from the east side and the same number from the west side. The committee reported as follows: West side campaign committee, J R Browne, S M Shaw, W H Grammar, Mrs C O Barton and Mrs R O Wheeler. For east side, Re E Haynes, J W Hays, T B McKeown, Mrs U G Winn and Mrs T E Brents.

This committee are urged by the county committee to get together as early as possible and plan for the campaign in Ada. The chairman called out a number to express themselves on the issue and responses were made by Rev Harrell, Joe Beard, Mayor Barton and Rev Rippey. The last speaker, Bro Rippey, spoke at length about the activity of the opposition and the need for an awakening among those interested in seeing the prohibition amendment extend over the Oklahoma side. A collection was taken for campaign expenses which amounted to about \$50.00. Interest is growing and a rousing reception will be given "Cyclone" Davis of Texas. This meeting will also be held in the open air.

Man Found Dead Near Stonewall Hurler Unknown.

Still unidentified the man reported in Monday's News as discovered dead on the Katy right of way 1 1/2 miles north of Stonewall was buried near where he lay.

He was about 40 years old was dressed only in blue jumper and overpair of saddlebags containing a few worthless clothes and trinkets. There was nothing to indicate who he was whence he came or whether he was going and no one was found who had ever seen him before. Since the body lay fifty feet from the railroad track and bore no marks of violence, it is supposed the man came to his death by heat prostration or a sudden attack of a chronic disorder.

After a five weeks absence Dr J R Runyon and family arrived home last night. The doctor attended a special course of lectures in New York City while his family visited relatives in Newport Ark.

Mr Runyon's train Sunday afternoon between Memphis and Springfield suffered a severe wreck in which the engineer lost his life. He stuck to his post here that he was and applied all the emergency appliances so slackening the train's speed that nothing save the locomotive and tender left the track or suffered damage. Naturally the engineer has an enduring monument in the hearts of all the passengers.

Mrs. McKinley at Rest.

There is always general sorrow in a community where a notably good woman passes away. Such has been the sorrow caused in Ada by the death of Mrs Sarah Pate McKinley, which occurred at 4 40 p m Monday. Born in Mississippi, later residing in Texas, for years the family have made Indian Territory their home.

It is sufficient to say of Mrs McKinley that she lived the ideal life of a noble Christian woman, a devoted wife and mother.

At the bedside when the end came there were gathered her husband, Dr J P McKinley, Mr Joe McKinley, until lately a business citizen of Gainesville, and Messrs John and Ben McKinley, popular and highly respected citizens of Ada.

After an appropriate and touching funeral service at the Christian church this morning at ten, the remains were laid to rest in Rosedale.

Not Equal to Luxuries.

A dapper young man took a seat on a bench in Madison Square Park, says the New York Press. Sunning himself at the other end of the bench was as fine a specimen of the genus hobo as ever disfigured a landscape. After seating himself the dapper young man drew a handsome silver case from his pocket and extracted therefrom a cigarette. With the cigarette between his teeth he drew out a silver matchbox, to find it empty. Snapping down the lid he turned to the tramp beside him and said "I beg pardon my friend but do you happen to have a match?" Hands plunged into his trousers' pockets and legs sprawled out before him the tramp surveyed his neighbor with an air of deep melancholy. Say he muttered hoarsely, who do you think I am—J Pierpont Morgan?"

Electric Dining Table.

A gentleman named Knapp has constructed and occupies in Troy, France a house which he calls the Villa Electrica or electric fairy palace, for the reason that servants are almost entirely superseded by electrical machinery. Table service for example is accomplished by the following devices:

An electric elevator transports the dishes from the kitchen to the dining room directly above. The dining table is in two parts—a small center table for flowers, fruits and ornamental pieces and an elliptical annular counterpane around which the guests are seated. The interval between the two parts is occupied by a moving band of metal. As each dish arrives from the kitchen it is deposited on a carrier, controlled by keys manipulated by the host, travels around the table stopping before each guest turning, if necessary, to present the handle of the soup ladle to the most advantageous point of attack going back to serve a belated or hesitating guest making another round and mutely pleading for the acceptance of another portion, returning the dish to the elevator collecting plates and other utensils with some slight assistance by the guests and proceeding to the service of the next course—all with nearly human and more than butlerian intelligence. The current is furnished by 28-volt accumulators so that the speed of electrocution is banished from the feast—Scientific American

Couldn't Survive a Consultation.

Washington Corr Pittsburg Post
Senator Morgan and Pettus were friends from boyhood and furnished the only case of a state having senators both residents of the same city. The fact that he was from Selma was urged against Mr Pettus when he became a candidate but the fact did not weigh against him.

During the past four or five years the aged senators spent much of their time in warning each other to be careful of their health. Morgan always insisted that his colleague should consult the doctors, for whom he had little respect. Something over a year ago Senator Pettus, working hard on a law case, was attacked by vertigo. His sons told him they were going to consult a doctor. He assented, but stipulated that there must not be more than one.

"You're sure there is only one of you," said the senator after he had got into the carriage with the doctor. The doctor, evidently thinking the senator desired to say something confidential, solemnly assured him they were alone.

"Well, I'm mighty glad of that," said the senator with a sigh of relief. "I'm sure I'll get well if there is only one of you. I never could survive a consultation."

TOLL TAKEN OF HUMAN LIFE BY THE INDUSTRIES

GREATER THAN DEATHS ON BATTLEFIELD

Over Half a Million Men and Women Annually Are Killed or Injured in the United States While Engaged in Productive Labor—Enormous Sum Needed to Support Those Incapacitated.

A Familiar Peril in Building Operations

New York—More than 500,000 men and women are injured or killed in the industries annually in the United States or one person every minute.

This industrial carnage costs the people of the country directly and indirectly over two and a half billions of dollars—a sum larger than the national debt.

Such are the death tolls of industrial progress which shows such a smiling face to those whose occupations involve no danger but turns a ghastly countenance on those who work in peril of their lives.

Whoever doubts these figures need only read the grim statistics to be convinced that modern industry is more fatal than war.

In the Japanese-Russian war a total of 333,786 men were killed and wounded on both sides not counting the losses in naval battles.

In the same period in the United States alone the great army of American laborers engaged in manufacturing and building operations suffered a loss of 425,000 killed and injured, 92,000 more lives were sacrificed to industrial progress in one year than during the greatest conflict of recent times.

Statistics of the Interstate commerce commission show that 84,116 people were injured and 10,046 killed on the railroads during the year ending June 30, 1904. Sufficient data has been accumulated by the United

States government and other responsible authorities to show that at least 5,100 men are annually killed or injured in anthracite mining alone and 425,000 in factory and building operations making the grand total approximately 525,000.

Total Death Toll Greater.

These estimates are conservative. If the exact number of accidents was known this total would be greatly increased.

In converting facts into figures Mr. Clarence Marx, who with other responsible investigators has given several years of study to the relation of crippled and unemployed persons to industry presents a startling array.

Of the 525,000 workers mentioned 15 per cent or 445,000 to struggle per cent only are killed leaving 85 against their handicaps. Estimating that at least 50 per cent of 222,000 of these are able to earn \$225 each annually which is 50 per cent of the annual average earnings of able bodied artisans we have a total of \$49,950,000. This is the loss in earning power.

Safely assuming that these persons would create twice as much wealth as they earn we would have a loss in production of approximately \$100,000,000 annually.

But this is only half the truth. If these 222,000 wage earners are not reestablished they must sooner or later be supported by the state. It is also evident that the other 222,000 who are totally disabled will also become a burden on the taxpayers.

Poor relief statistics show that it costs \$10,000 to support a pauper during his natural life time. To be conservative again let us estimate this cost at \$6,000 to make allowance for those who may be supported by relatives and friends or who may become partially self-supporting. Since under our present system the partially disabled are not reestablished the total number minus a small percentage must be supported at public expense. To do this costs approximately two and one-half billion dollars. In other words we contract each year to meet a debt of two and a half billion dollars within the lifetime of the persons thus injured.

Figures That Stagger

These are staggering figures but they are only a forecast of what we may expect if this wasteful destruction of life and limb continues.

In New York state according to the estimate of the state labor commissioner in 1900 44 workers in every 1,000 are incapacitated in the course of the year's work. That means for instance, that at least 40,000 purely industrial accidents occur in New York city alone every year. The ratio of injured and uninjured is not as high in some other parts of the country or the total number of accidents in the United States would be over 800,000 annually.

In one section of New York city the Borough of Manhattan there were last year 2,160 deaths by violence as astonishing as it may seem nearly one third of these deaths or 684 were caused by falls explosions caving in of earth premature blasts and falling rock. The river tunnels were constructed at the cost of 68 lives 43 in the Pennsylvania terminal works 20 in the Belmont tunnel two in the subway borings and three in the Hudson companies terminal.

In the huge smoky workshop called Pittsburgh one human life is sacrificed for every 50,000 tons of coal that are shipped out of the city. For each 7,600 tons of steel products one of the manipulators somewhere in the process of manufacture lays down his life and for each 70,000 tons of steel rails another laborer makes the last sacrifice.

Of the 2,600 deaths reported in Pittsburgh in 1908 919 were due to accidents in mills mines and on railroads. The number of accidents was not computed but it was undoubtedly in the thousands.

Causes of Fatalities

How does it all happen, you ask? If a huge ladle of white hot steel is upset, the molten stream burns alive its writhing victim. It may be that a man or woman is whirled to a horrible death in mill machinery, or a miner is blown to eternity in an explosion of damp in a mine.

Publicity is given to accidents on railroads, but little is heard of the thousands annually killed and maimed in manufacturing and building and in

some of the more obscure trades. It has been shown that 425,000 are annually disabled in factories and construction work. But we have no means of knowing how many are industrially displaced by inhaling the poisonous fumes in working over batteries, or the large numbers that are afflicted with mercurial poisoning and other ailments in the hat industry and allied trades. Neither do we know how many succumb to painters' colic, or blood poison by working with brass and copper.

The victims of tuberculosis among sweatshop workers, grain trimmers, longshoremen, coal haulers and others are shown to be numerous by the board of health reports, but the exact numbers have never been gathered into statistical form.

Tributary Evils.

This loss of life and limb in times of peace would be sufficiently appalling in itself were there no tributary evils. But the situation is rendered even more serious by the fact that only about 15 per cent of the industrial accidents result in the death of the victims while 85 per cent or 445,000 are doomed to a one-sided battle for existence.

When a man loses a limb or the use of it is rendered partially blind by an accident or in countless ways is incapacitated for his regular work, the first great question confronting him is to fit himself for some other form of

work. In our reckless haste to make money we forget that in so doing, the unnatural wear and tear of industry, and the fierce struggle for existence are producing an increasing host of dependent citizens, who have been worn out as a part of a machine and are then thrown on the industrial scrap heap.

The hours of labor are being slightly reduced and wages slightly increased, but the wear and tear on man and machine has been nearly doubled.

Many men, each one a unit of labor, valuable to the employer and to society, drop out crippled by accident or with their health undermined. Unless the employees are speedily able to readjust themselves in gainful occupations, they become public charges. Each man added to the list of the states dependents makes an added burden of taxes on the wealth producing citizens.

The employer who is the exponent of the industrial system is accountable for this waste of productive power, though not the originator of it, is himself one of the first victims to feel the extra burden of taxation. Doubtless he is also appealed to and subscribes liberally for private charitable schemes which are themselves largely necessary evils. Hence the waste full system of industry in which the waste of labor is lost sight of in the mad attempt to save cost of produc-

One Violent Death or Injury For Every Tick of Your Watch

labor. What are his chances to regain a foothold?

Some few corporations retain on the payroll those employees who may have been injured in their service but the number of such is small. A few provide pensions and even fewer have instituted some form of benefit that will be a real help in case of disablement.

But the great mass of injured persons must readjust themselves as best they can.

Prejudiced Employers

The chief reason why they fail to do this and start on the long tortuous road to semi-pauperism and finally the almshouse is the open prejudice of employers against hiring a cripple or a failure on their part to recognize the fact that he still possesses an economic value as he usually does. This remorseless prejudice against which many an honest and capable man has been forced to contend his driven valuable material to the waste heap of humanity if not to a self-made grave.

There are many positions filled by boys and girls who should be in school which could be better filled by older men and women unable to command higher wages because of physical disability. To supplant the incumbents of such positions would be to raise the standards of education and of living for if the children were not available their disabled seniors would take their places at a higher rate of wages though at less than current standards. This would do much to remove the stigma of a present national disgrace by which 1,267,324 boys and girls between the ages of 14 and 16 years are allowed to dwarf their young lives in our shops factories and mills. The handicapped man would supplant children only where a distinct economic

condition reacts on itself and the hard pressed employer becomes a victim to the very system that is slowly but certainly adding to the cost of maintenance and production by increasing the value of labor which he has tried to maintain if not to cheapen.

Remedy Pointed Out

Where is the remedy? If the present industrial system cannot be abolished it may be controlled. If the wear and tear must continue it may proceed with less filleton and waste. Legislation on this point is becoming more stringent and employers themselves are aiding in the effort to avoid needless loss of life and limb.

This problem can be solved only by sorting out the injured and readjusting them to other forms of labor. As employers more fully appreciate the great financial loss of life and limb as they now so fully guard the waste of raw material and so resolutely convert by-products into profit the half million now annually forced into idleness and nonproductivity will be reestablished on a self-supporting basis.

Centuries Paralleled

In former times visagals sets and slaves gave up their lives blindly to their feudal chiefs fighting their battles tilling their soil selling their own birth rights for a pot of miserable porridge.

As the fourteenth century vassal sold his service and life for food and shelter so the twentieth century artisan sells his labor and life for money with which to buy the necessities of life. If his wages are greater than his living expenses and he is fortunate enough to escape bodily harm he may under extremely favorable conditions be able to provide for an independent old age. But if shifting economic con-

and educational advantage is to be gained. He is fully competent to compete with the able bodied for many positions. It is not favoritism that he needs or asks; only an opportunity to demonstrate his fitness. The trouble is, he is rarely given that opportunity.

Great Need of the Day.

A crying need of the day is an awakening of the national conscience regarding the needless loss of human life and the resulting economic waste.

ditions condemn him to only a precarious living and if he is disabled by the machinery of industry, only one fate can be his—the acceptance of alms sooner or later from friends or the state. He has not shed his blood as the vassal of old in the service of a master. He has sacrificed himself on the altar of industrial progress, whose masters are practically unconscious of his future. —From the N. Y. Journal and American.

JUDGE K. M. LANDIS.

CAREER OF MAN WHO BROUGHT ROCKEFELLER TO COURT.

Has Been Noted for His Determination Throughout His Career of Dislocation—Experience as Secretary to Gresham.

Chicago—Men who have followed the career of Judge Kenesaw Moun-
tain Landis, who issued the subpoenas which brought John D. Rockefeller and other high Standard Oil officials into his court in Chicago recently, are not surprised at the determination he has shown to get the rock bottom facts in connection with the case of the Standard Oil company of Indiana. Judge Landis has been a forceful character wherever he has been placed.

A thorough American well grounded in the law indefatigable not to be swerved from a purpose once fixed—such is the judge who told John S. Miller, an attorney of immunity bath fame that he must produce certain evidence in order that Judge Landis might know what sums would constitute just and equitable fines in the case wherein the Standard Oil company, of Indiana had been found guilty by a jury in a federal court.

Directness and thoroughness won him the esteem of the foreign diplomats at Washington and of the American statesmen and politicians as well when he served as private secretary to Walter Q. Gresham secretary of state in the cabinet of President Cleveland.

It is related that upon one occasion Mr. Landis acting for Mr. Gresham clashed with the wishes of Mr. Cleveland and the president sought his removal. But so attached had Secretary Gresham become to the young man that he stood up loyally for his subordinate and when Mr. Cleveland found that to take Landis scalp he would have to take Gresham's also he acquiesced in the situation.

Later Landis and the president became strongly attached to each other. A man of striking features Judge Landis whose ruffled iron gray hair gives him the appearance of a man much older for the judge is not quite 41. He was born in Millville O. November 20, 1861 and is the sixth child of Dr. Abraham H. Landis who during the civil war was a surgeon in the Twenty-fifth Ohio regiment. It is to the fact that his father was badly wounded at the battle of Kenesaw Mountain that the judge owes his peculiar baptismal name.

At the age of seven he went with his parents to Logansport Ind. where he attended public school. As a boy he carried papers. Then he became a reporter on the Logansport Journal. He studied stenography and from 1883 to 1891 was official stenographer

of the circuit court of Lake county, Ind. Coming to Chicago, he entered the Union College of Law, from which he was graduated in 1890. He was admitted to the bar, and at the time when Secretary Gresham chose him for his private secretary and confidant he was one of the instructors in the Northwestern University Law school.

While in Washington Landis gained most valuable knowledge of men and things, which proved helpful in his later years. He came to know Mr. Gresham so well that he divined intuitively the famous Kentuckian's every wish, and Landis often assumed great responsibilities in the absence of

his superior invariably to be backed up in what he did by the secretary of state who had implicit confidence in him.

He relieved his chief of as much of the burden of the office as possible and he came to be known in and out of the department as having Gresham's sanction for all matters in which he assumed authority. Thoroughness and directness characterized his every act and being gifted with tact and fine judgment he knew as well what matters to let alone as what to take up. He made friends with all who had business with the department and especially was well liked by many members of the diplomatic corps.

On first arrival he shunned the social side of diplomatic life but before he left he was well broken in to the dress coat and reception habit.

STRIKING SOLDIER STATUE

Mr Newman's Fine Work for New York Building at Jamestown

New York—When recounting how he got his inspiration for his Spanish

Statue of Spanish War Soldier

War Veteran a statue executed for the rotunda of the New York state building in the Jamestown exposition. Mr. Allen G. Newman relates an amusing experience he had at West Point and which formed a determining factor in his choice of a model. He went up to West Point while looking for material for a soldier's monument.

Out on the parade ground, says Mr. Newman, was a company of artillery. They drilled as well as cadets but on account of the uniform I asked a regular who passed if they were cadets or regulars.

He answered with pride: No, these aren't cadets. These are soldiers.

Mr. Newman was born in New York city in 1875. In 1897 he entered the studio of Mr. J. Q. A. Ward to study and work under that sculptor for the next three years, a favor which the "dean of the profession" has extended to but few. The student's most lasting impression from his experience was a desire to keep as close as possible to nature in his work and to develop simplicity of expression. After this, he modeled an assistant to several sculptors, finding this an excellent school, affording him opportunity to see and study how different men work.

The "Spanish War Veteran" has a quality that is very valuable in sculpture.

THE CAR OF JUGGERNAUT.

Fanatics Believe That to Be Crushed Under It is to Gain Heaven

London—In the third week in June, following a custom established over a thousand years ago Hindus by tens of thousands flocked to Puri in Orissa, India, for the religious Festival of Juggernaut. From the temple the famous Car of Juggernaut was brought forth and dragged through the streets. It headed the annual procession of devotees of the god Vishnu, or Juggernaut, Lord of the Universe whose image or statue without legs and with stumps of arms rests within the colossal car.

Hundreds of pilgrims harness themselves to the stout cables by which the car is drawn. As they pull the ponderous car on its clumsy wheels many work themselves up to a degree of religious fervor little short of madness. And fanatics attempt to throw themselves to destruction under the murderous wheels, as a voluntary sacrifice to their idol. British civil officers prevent any act of suicide.

Hindus believe that to gain the favor of Juggernaut opens for them the gates of heaven. Therefore, in the days before the British occupation of

Famous Car of Juggernaut.

India, natives occasionally cast their bodies under the car to be crushed to a pulp, the belief being that self-immolation thus would be speedily rewarded by entrance into Paradise.

The car is 43 feet high. Its wheels are each more than six feet high. A wooden cage around the top, an addition of recent years, keeps fanatics from jumping upon their idol within. Body and wheels are of wood beautifully sculptured and inlaid, and for the festival the car is draped with gold cloth.
